

Site Based Programs

What is it?

- The Site Based program is a mentoring program where students from local elementary schools meet with individual mentors once a week. We see tremendous results from the friendships that are built. The children’s academic performance increases, their level of self-confidence improves and they are less disruptive!

What will they do?

- We will start with a snack and socializing. After everyone arrives we will have homework help and tutoring session. The rest of the time will be organized fun activities that will focus on one to one interaction between the mentor and child.

Who are the kids?

- Students who have been identified by a teacher, a social worker or by their parent as a child who would benefit from the one on one attention of a mentor.

Who are the Volunteers?

- The volunteers are individuals who are donating their time to spend with a child who may need a special friend in their life. They will be paired with the same child each week to help establish a closer relationship with the child. Each volunteer will be screened and trained by Big Brothers Big Sisters of Butler County.
